First Floor Renovation

A remarkable entire house renovation that reimagined the first floor of this large home and transformed a builder-beige layout and finishes into a SANCTUARY. By focusing on spatial planning and refined textures, the first floor now has wonderful flow and continuity from the entry and living room bar right into the expanded kitchen and family room. Other areas touched include 3 bathrooms, and a new basement bar and special wine enclosure.

7707 Clear Creek Ct., Blacklick 43004
